Preschool Administration & Management

Training Material for Montessori Teachers

Made with GAMMA

Core Areas of Preschool Management

01

Academic Management

Planning syllabus, activity-based learning, age-appropriate goals

02

Classroom Management

Organized materials, visual cues, routine structure

03

Child Management

Understanding behavior, individual differences, emotional security

04

Staff Management

Teamwork, clear instructions, emotional support

05

Parent Management

Regular communication, positive language, daily updates

Made with GAMMA

What is Preschool Administration?

Simple Definition

How we plan, organize, guide, and control everything to give children a safe, happy, and learning environment.

More Than Office Work

Includes classroom setup, child behavior handling, parent communication, and daily routine management.

Made with GAMMA

Academic & Classroom Management

Academic Management

Plan monthly syllabus with simple, achievable goals. Use activity-based learning, not worksheets.

Example for 2.5–3 years:

- Recognizing colors √
- Speaking 2–3 word sentences √
- Social play √

Classroom Management

Golden Rule: Organized classroom = better behavior

- Keep materials limited
- Fixed place for everything
- Use visual cues
- Same routine daily

Child Management: Understanding Behavior

Every Child is Different

Behavior is communication. Observe and understand before correcting.

Crying Child

Give emotional security, don't force. Comfort and reassure.

Aggressive Child

Redirect energy with physical activities. Channel emotions positively.

Not Sitting

Reduce circle time, make it interactive and engaging.

Speech Delay

Encourage repetition, songs, peer interaction. Be patient.

Made with GAMMA

Parent Communication: The Key to Success

Don't Wait for Problems

Communicate regularly, not just when issues arise.

Daily Updates

Share photos and videos of activities and progress.

Positive Language

Frame challenges as opportunities for growth.

Example: Instead of "He is not talking" → "We are encouraging him to speak, and he is slowly improving."

Made with GAMMA

Daily Administration System

1 Morning

- Classroom clean √
- Materials ready √
- Attendance sheet √
- Activity plan ready √

2 During School

- Observe children
- Maintain routine
- Handle behavior calmly

3 After School

- Update parents
- Note child progress
- Plan next day

Made with GAMMA

Record Keeping & Montessori Principles

Essential Records

- Attendance register
- Child observation notes
- Incident reports (if needed)
- Progress tracking

Helps with: Parent meetings, problem handling, school improvement

Montessori in Management

- **Independence:** Let children try
- **Order:** Everything in place
- **Respect:** No shouting
- **Observation:** Understand first

Made with GAMMA

Common Mistakes to Avoid

- Forcing children to sit long
- Too many worksheets
- Shouting or scolding
- Comparing children
- No routine

What Makes a Preschool Successful?

Consistent Routine

Same structure daily builds security and confidence

Loving Teachers

Emotional support and genuine care for each child

Clear Communication

Regular updates with parents in positive language

Structured Management

Organized systems for everything in the school

> **"Good teaching is not enough. Good management makes teaching successful."**
